SIZE CHARTS

CHOOSING THE RIGHT GLOVE SIZE

STEP 1
Measure the circumference of your hand, just below the knuckles, excluding your thumb.

STEP 2
Round the measurement up to the next whole number and add 1 (Ex. 7.5” rounds up to 8 + 1 = 9). This is your ideal glove size.

STEP 3
Measure both hands and order the bigger size if they’re different.

Your gloves should fit slightly large, generally 1/2” to 1” over the end of your finger tips. A glove that is too big can cause you to have less control, so getting the right size is important.
